

Dear Friends,

Get Up & Give for Methodist Family Health Foundation this Spring!

Imagine you are a child who is suffering from a mental, behavioral or developmental disorder entering the hospital with only the clothes you have on. Methodist Family Health will provide much-needed treatment for your physical and mental well-being. But what about the “extras” that give you a sense of safety and comfort?

That’s where the Foundation steps in. We provide essentials—clothing, books, school supplies, hygiene products and more—that are not covered by Medicaid or private insurance. Most of our clients are in the foster care system or come from families with little or no money. A new pair of socks, a fresh set of sheets or a cozy sweatshirt may seem small to some, but having access to these necessities is vital to our clients’ ability to heal. Meeting their needs helps reduce feelings of stress, anxiety and isolation while increasing their sense of confidence, dignity and security.

This Spring, we are asking for new items and contributions to stock our Donation Closet. See the enclosed list of the items those in our care need most. You’ll also find QR codes to order goods directly from Amazon and Walmart.

Help us fulfill our mission of providing the best possible care for Arkansans who experience abandonment, abuse and neglect or struggle with psychiatric, behavioral and emotional issues.

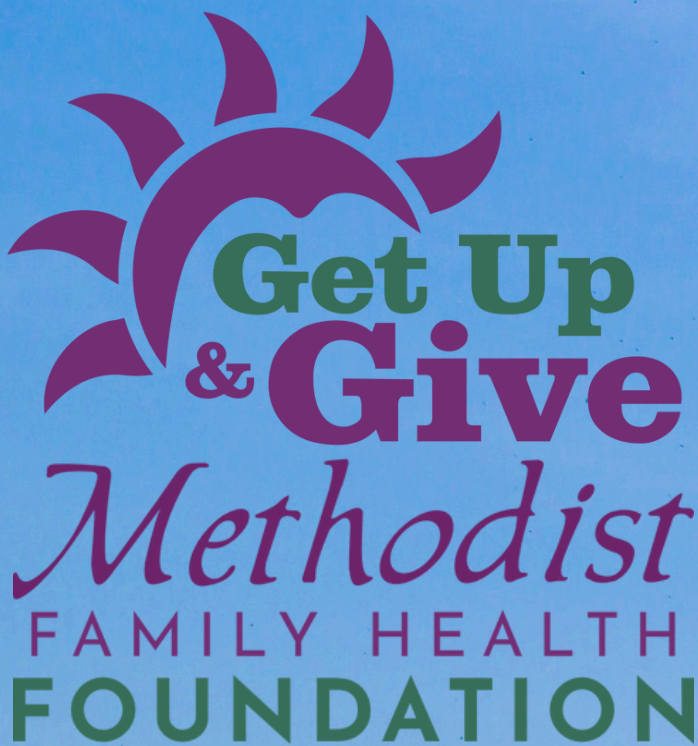

Please know that your compassion, concern and donations make a positive impact. With your support, we can continue to help our clients build a brighter future.

With Gratitude,

Amanda Smith

Amanda Smith, CFRE
Executive Director

Get Up & Give is an annual donation drive to collect necessities and much-needed items for the children and families in the care of Methodist Family Health. Many of the Arkansans we serve are in the foster care system or struggle to afford basic essentials.

Your individual, group and corporate support helps provide supplies that allow our clients to focus on healing after experiencing trauma, abuse or mental health challenges.
